DERMATOLOGY[®]
ELIZABETH F. CALLAHAN, MD

Welcome Back!

We are happy to announce that in agreement with Governor Desantis's most recent order, we are once again performing elective procedures as of **May 4th, 2020**. We are excited to go back to full operation, but rest assured we are continuing forward with our current COVID-19 protocols.

Arriving patients will notice our front door is propped open as to eliminate a point of contact, and our waiting rooms are large enough to accommodate social distancing with ease. We take temperatures of all patients and employees upon arrival, and our staff wear masks at all times. Our office is professionally sterilized every night.

We have exceptional training and equipment to deal with the situation at hand, and we will continue to serve patients with the same confidence that we are known for. We missed you all, and we are looking forward to meeting your needs once again.

Best wishes, and stay safe!

-Dr. Callahan and the staff of SkinSmart Dermatology
